- > Generously filled luxury adjustable cushioning
- > Deep supportive & highly resilient seat foam
- > Smooth & quiet dual motor operation
- > Heavy duty frame with 25 st capacity
- > Choice of Lateral or Waterfall back

## Admiral

The premium Admiral rise and recliner chair combines beautiful styling, quality craftsmanship and great comfort and support due to a combination of the generous deep-filled cushioning and foam combined with the newly developed Tilt-in-Space action.

The exceedingly comfortable Tilt-in-Space motion works by maintaining a consistent angle between the base and back of the chair as the foot rest is being elevated. This also considerably reduces the occurrence and risk of pressure sores by evenly spreading the pressure when seated, and the high leg elevation position can also help improve your circulation.

Choose from either of the two highly supportive and comfortable backs; the Waterfall back with its adjustable cushions or the Lateral back which provides superior lateral support. The range is also available for express delivery in a range of luxurious fabrics in both the compact and standard size chairs.

The Admiral's smooth and quiet dual motor operation combined with the easy-to-use 'back-lit' hand controller assures you can safely stand, recline and relax in comfort at all times. The ultra-comfortable leg rest offers support across the whole width of the chair.

Other user friendly features include the large storage pockets positioned on either side of the chair and also the ability to quickly swap the hand controller from right-hand to left-hand use. Optional extras for the Admiral includes arm and head covers.

## Specifications
